PULASKI, TENN.  
FRIDAY MORNING, NOV. 2, 1866.

**A Southern Convention.**  
The Memphis Appeal proposes a convention of the people of the South by duly elected delegates, to meet at some central point and qualified by an immediate commission from the people to express their sentiments and vindicate their policy and purposes from the foul aspersions heaped upon them by the traveling adventurers, lolling from this section, and lately on a pilgrimage through the Northern States, awakening by their slanders and falsehoods the most intense animosity against us.

A Boston correspondent of the *National Intelligencer* writes: "I have learned here that Mr. Boutwell, who has good authority on this point, has given assurance that articles of impeachment of the President will be offered and carried by the House at the next session."

**Tue Dengue, or "break-bone fever,"** is very generally prevailing. It is said that there are six thousand cases of it in Charleston. It is not very pleasant to take, but it rarely kills any one.

There are a few extreme men in the South—many in the North—and both North and South they talk very foolishly. Ordinarily their radicalism would do but little harm, now it fills the hearts of a whole people with apprehension and grief. In God's name, let there be an end to it.

The receipts for internal revenue for the present fiscal year, from July 1st to Oct. 15th, amount to \$113,167,001.

Gov. Wells has refused to call the Louisiana Legislature together to consider the question of repairing the levee, fearing that his first act would be to impeach him.

**ESTIMATE OF THE COTTON CROP.**—The Agricultural Bureau at Washington estimates the cotton crop of this year at 1,500,000 bales. A correspondent of the *National Intelligencer*, however, writing from Mississippi, thinks that it will be less than 800,000 bales.

R. A. ALEXANDER shipped, last Monday, from Lexington, Ky., to H. Sanford, of New York, thirteen colts, bought by that gentleman at the recent sale. This lot was composed of nine Lexington colts, two Scythians, one Australian, and one Revenue.

GEN. SWEENEY is at home, at Watertown, N. Y., with his family, and says he intends for the present to stay there.

It is said that eighty-one schools for freedmen are now in operation, having an attendance of 8,260 pupils.

It is estimated that the crop of dried apples, blackberries, and other fruit, which will be shipped from North Carolina the present season, will amount to more than 1,000,000 pounds, worth at the North over \$300,000. At High Point Depot alone, \$75,000 worth of dried blackberries have already been shipped.

From an official report it appears that the earnings of the Nashville and Louisville Railroad for the year ending June 30th, 1866, were \$3,143,189, and its expenses only \$1,551,135, being a net profit of 56 1/2 per cent.

A Western paper says: "Gen. Butler said in his speech at the negro suffrage convention in Philadelphia, 'Had the negro not been armed the result would have been far different.' Of course he meant that the twenty millions of Northern whites would, but for the aid of the negroes, have been whipped by the seven or eight millions Southern whites."

The Louisville Journal thinks the Northern whites must be tremendously obliged to him. They should give him a big dose of tephel, administered with spoons."

It is stated that Artemus Ward receives \$75 apiece for the letters he writes and has published in the London *Punch*.

An eminent German musician says there are better judges of music in the United States, better critics and better performers than can be found in Europe.

A New Orleans dispatch of the 26th ult. says the Texas House of Representatives rejected the Constitutional Amendment by seventy-six to five.

MICK MCCOOL, late prize fight victor at St. Louis, has declined the challenge of Joe Coburn, of New York, and also that of Davis, his late competitor, for a second trial. He says he renounces the ring forever. Growing senile.

A project is on foot for supplying New York city with gas manufactured at the coal mines in Pennsylvania. It is proposed to convey it through iron pipes, a distance of one hundred and fifty miles, to that city. It is asserted that it can be furnished at a much cheaper rate than is now paid.

At the last Cabinet meeting it was resolved to demand payment at the hands of the British Government in full, for all the damages committed by the Confederate privateers which were fitted out in England. Instructions to carry out this decision were sent to Mr. Adams last Thursday. The Government will not agree to a commission on the subject.

The Albany Evening Journal, after a long discussion of the impeachment question, concludes with an expression of hope that the attempt to impeach Mr. Johnson will not be made. All this talk, says the New York Herald, about impeachment, is the merest Radical humbug, and not a man but knows that to attempt it would utterly ruin the party.

GEN. BEAUREGARD has addressed a letter to Gen. Grant, applying for the restitution of his personal property retained by the United States, against the terms of the surrender of the armies. Gov. Parsons, of Ala., had a long interview with the President on the subject.

In Austin, Texas, wheat is worth \$1.50, flour \$5.50 per 100 lbs., corn 50¢, sweet potatoes 50¢ to 75¢, Irish potatoes \$4, bacon 25¢, lard 20¢, butter 25¢, chickens 20¢, and other things in proportion. Pecans are beginning to come in and bring from \$1 to \$1.50 per bushel.

Or Gen. Forrest the Memphis Post, an ultra Radical paper, says:

"Up to the close of the war we, in common with almost all Union men, regarded General Forrest with a degree of disfavor greater than was felt for almost any other Confederate officer. His manly and honorable address to his troops at the time of the surrender caused us to look upon him with less prejudice; and the straightforward, consistent course he has since pursued has induced us, whenever we have had occasion to allude to him, to do so with an expression of high respect."

**Mexico Again.**

France seems to be with Mexico like the man who drew the elephant. A few days ago we understood that Maximilian and his tea-party were to retire with their usual dignity and let Mexico go to the dogs if she wished. Then we hear the seductive diplomatic, Empress Carlotta, Mr. Seward and the United States to the contrary notwithstanding, had so manipulated the leading strings, through a recent Convention, as that France places herself in perpetual position and power in Mexico.

Under this convention France is granted a privilege of collecting and appropriating to the payment of all debts due or claims made by the French Government against Mexico—one half of the revenue of the country—of imports and exports and all other dues. A mortgage is given to secure these payments, or rather, as it would be called under our law, a pledge, inasmuch as the property mortgaged is to be left in the hands of, and the revenues received by, the creditors. To secure that lien and these receipts, the revenue is to be collected by French officials, and the places where it is to be collected are placed under the protection of the French flag, wherever it waves, will be protected by French soldiers. Meanwhile, the New York papers quarrel with each other as to whether or not the United States had better appropriate the whole country to their own use and cut the knot at once.—E.E.

**Death of Gen. Washington Barrow.**  
From the Nash. Union and American]

We are pained to announce the death of this distinguished citizen, which occurred at St. Louis, Missouri, on Friday evening, 19th inst., at 10 o'clock. His health has been delicate and precarious since his return from the extreme South a year ago, but on leaving home a few days since, on a visit to a brother, at whose house he died, it had apparently improved, and he hoped to return benefited by his trip. It was not ordered, however, and the intelligence of his death, on yesterday, struck sadness to the hearts of many friends and admirers, and general regret to the community in which he was born and passed his life.

Gen. Barrow was a native of this vicinity and had reached his fifty-ninth year.

It is said that Alexander T. Stewart, of New York, has an income larger than the annual salaries combined of the President of the United States, Senators and Congressmen, State officers and members of the Legislatures of the different States. Out of such an income Mr. Stewart could pay the entire expenses of several State governments as easily as many men now support their own families.

**VIRGINIA, Kentucky, Tennessee and Missouri** pay this year an internal revenue tax of \$19,000,000 on tobacco.

The Herald's Washington special, of 30th ult., says Gen. Grant is anxious that Gen. Sherman should assume the portfolio of Mr. Stanton, in order that he may have the hearty cooperation of the War Office in the work of reorganizing the army. Gen. Sherman, it is reported, does not aspire to the position, and Gen. Grant hopes to have Gen. Steedman nominated for the position.

**MARRIED.**—At Tusculum, Ala., on the 25th ult., Col. Gus A. HENRY, Jr., of this State, to Miss Ella WINGFORD, of Tusculum.

**GOLD** in New York, on the 31st, 146 1/2, and in Nashville, 144 1/2.

The Washington correspondent of the Cincinnati Enquirer telegraphed on Wednesday as follows:

"Lieutenant Gen. Sherman has written a letter to the President emphatically and unequivocally indorsing the policy of the Administration, and deprecating the course of the Radicals in the treatment of the Southern people."

"My paragraph of last night relative to the withdrawal of Mr. Stanton from the Cabinet has produced a sensation, and caused numerous telegrams to be sent here to inquire about the authenticity of the statement. What I stated is correct, and, as before mentioned, upon high authority."

The Agricultural Department has reports from various parts of the country, establishing the fact that notwithstanding the recent heavy rains and early frosts, there will be the largest corn crop ever produced in America.

The telegraph is again busily informing the country that Stanton is certainly to retire soon. This has been so often repeated it has become an old song, and few are found so credulous as to believe it.

**Remedy for Diphtheria.**

As the season is approaching in which this distressing and to often fatal disease, is more or less prevalent, we present our readers with the following simple and effectual remedy:

Take Golden seal, pulv., Borax, pulv., Alum, pulv., Saltpeper and Cayenne Pepper, of each one drachm, table salt two drachms—put in a tin cup and pour half a tea cup of boiling water and same quantity of strong vinegar thereon; let stand on the fire a few minutes, but not boil. When cold use with a swab—say every half hour, or as often as necessary.

Use the following liniment in urgent cases: Equal parts of Turpentine, Sweet Oil and Hartshorn, well mixed—apply externally.

An Eastern editor asks his subscribers to pay up, that he may play a similar joke upon his creditors. We like to see a good joke go round.

**Public Lands in the South—Bounty Land Warrants.**

The Secretary of the Interior has decided in response to an inquiry from the Register and Receiver of New Orleans, that public lands in the South can neither be entered by purchasers for money or located with Land Warrants. He says that the only way in which lands can be acquired in those States, now, is by homestead, for actual settlement and cultivation, as provided by the act of Congress, approved 21st June, 1866, and each claimant is thereby restricted to one-half quarter section, or 80 acres; the disposal of mineral lands, however, including iron and coal, remaining unaffected by the operation of said act.

He decides that the only way such lands can be obtained is under the negro homestead law, which excludes all who are unable to take the test oath. It seems our public lands are specially devoted to the negroes, and that whites are to be excluded. The holders of land warrants can locate them in the Western States, but not here. We have one system of land laws for the South and another for the North and West.

**A GILES COUNTY Cotton & Stock Farm**

**For Rent.**  
I will rent for a term of years, at the court house in Pulaski, on the first Monday in December,

**THE BRAMLET FARM,**  
on Pigeon Roost creek, three miles north of Pulaski. The farm consists of one thousand acres, between six and seven hundred open land. There is a very good house and herds-grass meadow, and good pasture lands, comfortable improvements for a family residence, good cabins for laborers, several good springs, and an abundant supply of stock water on the farm. It is one of the best available.

**Farms for Residence and Cultivation** in the county. For further particulars, inquire of R. J. Gordon at Pulaski, or the undersigned at the office of Bailey, Ordway & Co., Nashville.

Columbia Herald, Franklin Review and Nashville Dispatch give full particulars and send bill to Bailey, Ordway & Co., Nashville.

**Mexico and the United States.**

The Times' Washington special of Oct. 30th, says Col. Campbell, U. S. Minister to Mexico, has left that city with credentials to the Mexican government, and with full instructions conforming with the tripartite arrangement already announced between the United States, France and the Republic of Mexico.

Napoleon is to commence the withdrawal of the French army from Mexico next month, and it is probable that the whole army will be withdrawn by the 1st of January next.

Of course Maximilian leaves also. Our Government will extend to the Juarez Government a protectorate, to be operative and ready in case of emergency. In order to accomplish this, a military officer of high rank will go with Col. Campbell, and both Gen. Sherman and Gen. Hancock are spoken of in this connection.

For these friendly offices, Mexican territory will be ceded to the United States, which will give us the whole of Lower California, together with Chihuahua and Sonora.

There is a slight difference of statement as to the time of the promised display of celestial pyrotechnics. Some of the learned professors, announce it for the 12th, others for the 14th. As it is a free exhibition, says the New Orleans Crescent, the public will keep a lookout for the first date.
